

Why Big Screens Are Important to Your Practice

Increased Awareness of Your Products & Services

Create custom messages and videos about your products and services. Patients will be motivated to ask about and purchase service or product they need when they see them on your TV.

Modern

Show your patients that you are a modern and up-to-date practice.

Constant Exposure

Big Screen TV messages are always communicating your important messages.

High Frequency

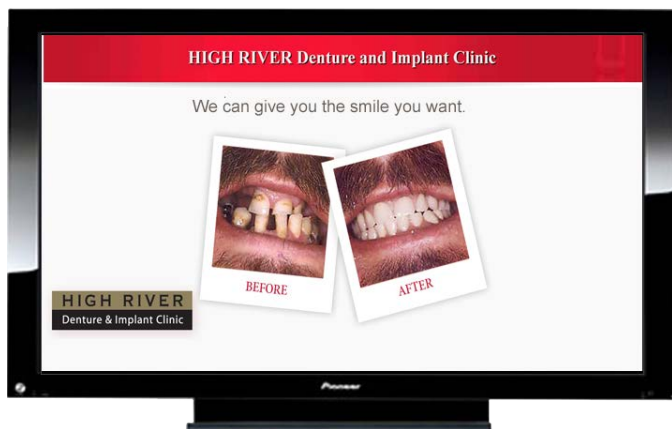

Frequency and repetition are key to communication. Big Screen TV's are unparalleled in providing this.

Impact

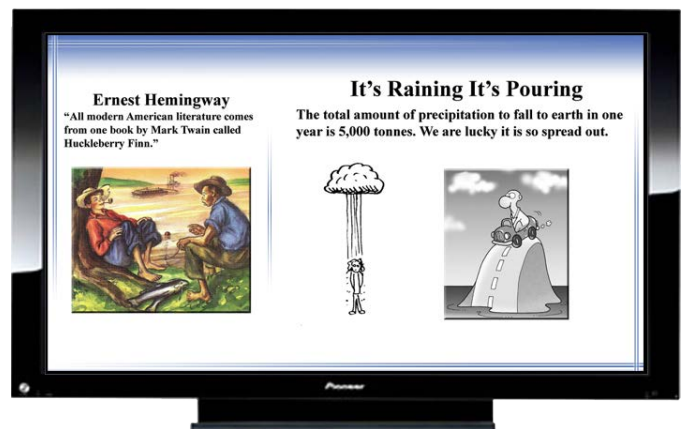

Big screens communicate much better than printed signs. Bigger and bolder is always better.

Cost Effective

Dr. Know's Screens are very cost-effective. Have us manage them or DIY and save more.

Fun and Interesting Messages Keep Them Watching

You Can't Escape It!

There is always some down time for your patient. Whether it is waiting for the Insurance to go through, for their appointment or while the receptionist is on the phone. Make use of this time to communicate important messages with Dr. Know's Screens in your waiting room.

Don't have room for a big screen? Also Available on a Tablet!

Place the tablet at the reception or Ops so patients see the message you want to communicate.

Manage It Yourself or Let Us Take Care of It
