

JustTexting[®] is the most reliable and effective way to communicate with your customers in a timely way.

JustTexting is a powerful tool that makes it easy to use texting in the Service Dept. Incoming messages are received right on your computer(s) and outgoing messages are delivered to your customer's phones.

What Makes Us Different is...

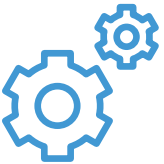

Dr. Know's Texting has really helped us communicate with our customers in a timely fashion. We use it to book appointments, tell customers that their vehicle is ready, follow-up with declined work and more. Mike Kenopic - Store 30

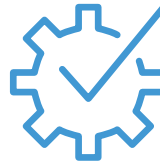

JustTexting comes with a number dedicated to your use so customers will instantly recognize your messages. If a customer calls your texting number, the call is forwarded to your Service Landline. No missed calls.

It's easy for your staff to respond to incoming messages because they appear in pop-up boxes on Service Area computer(s) and also make a notification sound when they arrive.

JustTexting provides a managed service to send out tire change over reminders from Corporates Tire Service Excel list.

JustTexting has many uses. It can book service appointment, follow up on declined work, inform customers that their vehicle is ready and much much more.

Features

- Runs on multiple computers.
- Save and reuse common messages.
- Tag names to phones to make it easier to see who is messaging.
- Send change over reminders to existing customers.

Benefits

JustTexting[®] communicate with your customers in their preferred way.

JustTexting has really helped us spread out the work load of tire change season. By booking more appointments there is not the rush at the desk. We have also booked more appointments overall this year. Desmond Chatura - Store 169
